The school admits as students those who have a valid High School Diploma or GED. If the student's High School Diploma is in a foreign language it is the responsibility of the student to get the diploma translated into English by a school approved translator or has been performed by an outside agency that is qualified to translate documents into English and confirm the academic equivalence to a U.S. high school diploma. At the school's discretion, official transcripts may be requested and evaluated by the director prior to enrollment of the student. If the information cannot be adequately verified, the student will be required, at their expense, to take and pass a GED test prior to enrollment.

Any applicants that do not meet the above-mentioned requirements shall be denied admission. A letter explaining the reason(s) will be given to the applicant upon request and a copy kept on file at the school for at least one year.

STUDENT RECORDS

Kaizen Beauty Academy maintains all student records, including grades, services and accounts. Students or parents of a dependent minor may access student records upon written request and an appointment with a school official. Kaizen Beauty Academy respects the students' right to privacy per FERPA (Family Educational Rights and Privacy Act) and will only release students' information with written permission from that student. School provides access to student and other school records to its accrediting agency.

COURSE NUMBERING SYSTEM

In addition to their names, each course has an identification number. The letters in front of each number represent the specialty they are related to, and the number represents the order in which they will be taught within that specialty, although there are no pre-requisites for any of the courses (meaning that the student must not have taken a previous course in order to benefit from another). The letters mean: GN for General Courses (courses that are not particular to any specific program, but are related to the beauty industry), CL for Cosmetology, NT for Nail Technician and FS for Facial Specialist.

LEAVE OF ABSENCE POLICY

A Leave of Absence (LOA) is a temporary interruption in the student's program of study. A Leave of Absence will be granted in the event of unforeseen circumstances in a student's life that present a temporary problem in their matriculation, but also where a reasonable expectation exists that the student can return fairly quickly, and complete their respective program of study. Students are required to request LOAs in advance in writing, which must include the reason for the request, supporting documents (if applicable), and the student's signature. If the LOA is due to an unforeseen circumstance (such as hospitalization, etc.), the institution can grant the LOA to the student who did not provide the request prior to the LOA start date and collect the documentation and signatures at a later time. A refund calculation is not performed in the event of a Leave of Absence. A student is not considered withdrawn so a refund calculation is not performed in a leave of absence.

In order to be placed in a Leave of Absence, the student must complete the Leave of Absence Request Form. Leaves of Absence will be granted for a minimum of 14 days, and are not to exceed 180 days in any calendar year.

A leave of absence will extend the student's contract period and maximum time frame by the same number of days taken in the leave of absence. Changes to the contract period on the Enrollment Agreement will be identified by all parties or an addendum must be signed and dated by all parties. There will be no additional charges for a LOA. If the student fails to return or contact the school Financial Aid Department on the documented return date, the student will be considered to have withdrawn from the school as of that date the student began the LOA. The withdrawal date for the purpose of calculating a refund is always the student's last day of physical attendance.

GRADUATION REQUIREMENTS

Every student must complete the required number of hours for course completion. Each student must achieve the minimum overall academic average (detailed below) in order to graduate. Students must complete all required tests and quizzes, and also complete all required numbers of services/skill demonstrations (as applicable). Finally, in order to qualify for graduation, all students must have a zero-balance, or have made other pre-approved payment arrangements.

ABSENCES/MAKE-UP WORK

Kaizen Beauty Academy does not differentiate between "excused," nor "unexcused" absences. A student is required to maintain the minimum attendance percentage of attendance during normal matriculation, regardless of the reason for their absence. Make-up work should be scheduled with the student's instructor as quickly as possible upon a student's return from absence.

ATTENDANCE AND SATISFACTORY ACADEMIC PROGRESS POLICY

SATISFACTORY ACADEMIC PROGRESS POLICY

The Satisfactory Academic Progress Policy is consistently applied to all students enrolled in the Cosmetology, Nail Technician, Facial Specialist, Full Specialist and Makeup Artistry and Facial Specialist programs whether participating in Title IV programs or not, and is applied to all students consistently in a specific program and scheduled for a particular category of attendance (part time/full time). It is printed in the catalog and made available online to ensure that all students receive a copy prior to enrollment. The policy complies with the guidelines established by the National Accrediting Commission of Career Arts and Sciences (NACCAS) and the federal regulations established by the United States Department of Education.

EVALUATION PERIODS

Students are evaluated for Satisfactory Academic Progress as follows:

Cosmetology	450 & 900 actual hours
Nail Technician	120 actual hours
Facial Specialist	130 actual hours
Full Specialist	300 actual hours
Make-Up Artistry & Facial Specialist	150 actual Hours

Evaluations will determine if the student has met the minimum requirements for satisfactory academic progress. The frequency of evaluations ensures that students have ample opportunity to meet both the attendance and academic progress requirements of at least one evaluation by midpoint in the course.

ATTENDANCE PROGRESS EVALUATIONS

Students are required to attend a minimum of 66.67% of the hours possible based on the applicable attendance schedule in order to be considered maintaining satisfactory attendance progress. Evaluations are conducted at the end of each evaluation period to determine if the student has met the minimum requirements. The attendance percentage is determined by dividing the total hours accrued by the total number of hours scheduled. The student's start month in school will be counted as the first month of the number of hours scheduled each day. At the end of each evaluation period, the school will determine if the student has maintaining at least 66.67% cumulative attendance since the beginning of the course which indicates that, given the same attendance rate, the student will graduate within the maximum time frame allowed.

MAXIMUM TIME FRAME

The maximum time (which does not exceed 150% of the course length) allowed for the students to complete each course at satisfactory progress is stated below:

<u>COURSE</u>	<u>MAXIMUM TIME ALLOWED</u>	<u>SCHEDULED HOURS</u>
Cosmetology (Full time – Day)	60 Weeks	1800
Cosmetology (Part time – Evening)	90 Weeks	1800
Nail Technician (Full time – Day)	15 Weeks	360
Nail Technician (Part time – Evening)	22 Weeks	360
Facial Specialist (Full time – Day)	13 Weeks	390
Facial Specialist (Part time - Evening)	20 Weeks	390

Full Specialist (Full time – Day)	30 Weeks	900
Full Specialist (Part time – Evening)	45 Weeks	900
Makeup Art. & Facial Spec. (Full time – Day)	15 Weeks	450
Makeup Art. & Facial Spec. (Part time – Evening)	23 Weeks	450

Please note that students who reach maximum-timeframe and have not yet completed all of the required graduation requirements for completion of their chosen program may be allowed to continue training until completion on a cash-pay basis, but will not be considered making Satisfactory Academic Progress

Please also note that a student on an approved leave of absence will have their scheduled graduation date (contracted graduation date) extended by the same number of days approved in the Leave of Absence.

ACADEMIC PROGRESS EVALUATIONS

The qualitative element used to determine academic progress is a reasonable system of grades as determined by assigned academic learning. Students are assigned academic learning and a minimum number of practical experiences. Academic learning is evaluated after each unit of study. Academic progress is measured on a cumulative basis. Practical assignments are evaluated as completed and counted toward course completion only when rated as satisfactory or better. If the performance does not meet satisfactory requirements, it is not counted and the performance must be repeated. Practical skills are evaluated according to text procedures and set forth in practical skills evaluation criteria adopted by the school. Students must maintain a written grade average of 75% and pass a FINAL written exam prior to graduation. Students must make up failed or missed test and incomplete assignments. Numerical grades are considered according to the following scale:

A / Excellent	100 - 90
B / Very Good	89 - 80
C / Good	79 - 75
D / Not acceptable	74 -70
F/ Failed	69 - 0
Minimum score for satisfactory progress 75%.	

DETERMINATION OF PROGRESS STATUS

Students meeting the minimum requirements for academics and attendance at the evaluation point are considered to be making satisfactory academic progress until the next scheduled evaluation. In order for a student to be considered making satisfactory academic progress as of a course check point, the student must meet both attendance and academic requirements. Students will be notified of any evaluation that may impact the student’s eligibility for financial aid.

WARNING

Students who fail to meet minimum requirements for attendance or academic progress are placed on warning status and considered to be making satisfactory progress while during the first warning period. The student will be advised in writing on the actions to attain satisfactory academic progress by the next evaluation. If at the end of the warning period, the student has still not met both the attendance and academic requirements, he/she will be determined as NOT making satisfactory academic progress and placed on probation, if the student prevails upon appeal of a negative progress determination prior to being placed on probation.

PROBATION

After the warning period students who fail to meet minimum requirements for attendance or academic progress and the student appeals the negative progress determination at the beginning of the probationary period and the institution determines that satisfactory academic standards can be met by the end of the subsequent evaluation period are placed on probation. The student will not be considered to be making satisfactory progress during the probationary period. The student will be advised in writing on the actions

to achieve satisfactory academic progress by the next evaluation. If at the end of the probationary period, and if the student prevails upon appeal (see below), the student has still not met both the attendance and academic requirements, he/she will be determined as NOT making satisfactory academic progress and, if applicable, students will not be deemed eligible to receive Title IV funds, HEA program funds, if applicable, unless the student is on warning or has prevailed upon appeal of the determination that has resulted in the same status of probation.

APPEAL PROCEDURE

If a student is determined to not be making satisfactory progress, the student may appeal the determination in the beginning of the determination. The student may appeal the determination because of death of a relative, an injury or illness of the student or other allowable special circumstances as determined by the school director. The student must submit a written appeal to the school on the designated form with supporting documentation of the reasons why student failed to meet SAP, what has changed in the student's situation that will allow the achievement of satisfactory academic progress at the next evaluation and why the determination should be reversed and. Appeal documents will be reviewed and a decision will be made and reported to the student within 30 calendar days. The appeal and decision documents will be retained in the student file. If, and only if, the student prevails upon appeal, the satisfactory academic progress determination will be reversed. Students who prevail upon appeal will be determined to have re-established SAP and Title IV will be reinstated if applicable. An academic plan will be designed to allow the student to re-establish Satisfactory Academic Progress.

RE-ESTABLISHMENT OF SATISFACTORY PROGRESS

Students may re-establish satisfactory progress and Title IV aid, as applicable, by meeting minimum attendance and academic requirements by the end of the probationary period.

INTERRUPTIONS, COURSE INCOMPLETES, WITHDRAWALS

If enrollment is temporarily interrupted for a Leave of Absence, the student will return to school in the same progress status as prior to the leave of absence. Hours elapsed during a leave of absence will extend the student's contract period and maximum time frame by the same number of days taken in the leave of absence and will not be included in the student's cumulative attendance percentage calculation. Students who withdraw prior to completion of the course and wish to re-enroll within six months of the original official withdrawal date will return in the same satisfactory academic progress status as at the time of withdrawal, regardless of the time frame.

NONCREDIT AND REMEDIAL COURSES

Noncredit and remedial courses do not apply to this institution. Therefore, these items have no effect upon the school's satisfactory progress standards.

ACCESS TO SATISFACTORY ACADEMIC PROGRESS REPORTS

A copy of the student's satisfactory academic progress report is maintained in the student's academic file.

TRANSFER HOURS & SATISFACTORY ACADEMIC PROGRESS

Please note that students who transfer credit from training previously earned at another institution will have those hours counted as both attempted and completed hours for the purposes of maximum time-frame, and that SAP evaluation periods are based on actual contracted hours with the school.

FINANCIAL AID POLICIES

APPLYING FOR FEDERAL STUDENT AID

Financial Aid is available for those who qualify. Federal Student Aid is awarded on a need basis for each applicant. Need is the difference between the cost of your education (education expenses such as tuition, fees, room, board, books, supplies, and other expenses) and the amount the student and his/her family can afford to pay. This is determined by the standard formula established by the U.S. Department of Education. Need is determined by evaluating the information from the Free Application for Federal Student Aid (FAFSA). Factors such as income, assets and benefits are considered in determining the student's financial needs.

FEDERAL FINANCIAL AID PROGRAMS

Financial Aid consists of funding provided through federal resources to help cover educational expenses. This funding consists of Pell Grants that do not need to be repaid and loans that have a variety of repayment options. Financial aid is available for those who qualify, and there are different types of financial aid program. The school Financial Aid Department can assist students in determining if they qualify for any of the following types of financial aid:

Federal Pell Grant: The Federal Pell Grant is a need-based federal grant for undergraduate students, and it does not require repayment.

William D. Ford Direct Loan Program: The William D. Ford Direct Loan Program offers low-interest, government-funded loans that include Direct Stafford Loans (subsidized and unsubsidized), Direct Parent Loans for Undergraduate Students (PLUS), and Direct Consolidated Loans. These long-term loans are available to students who are enrolled at least half-time in school.

Direct Subsidized Stafford Loan: The Direct Stafford Subsidized Loan is a need-based loan. The interest rate varies annually and is paid by the government while students are in school at least half-time and during any periods of deferment. Loan repayment begins six months after students graduate, leave school, or drop below half-time status. Recipients must complete entrance and exit counseling.

Direct Unsubsidized Stafford Loan: The Direct Unsubsidized Stafford Loan is a non-need-based loan available to all eligible students regardless of income. The interest varies annually and begins to accrue at the time of disbursement. Students are responsible for paying accrued interest but may choose to defer and capitalize interest payments. Loan repayment begins six months after students graduate, leave school, or drop below half-time status.

Direct Student Loans for Undergraduate Students (PLUS): For students who qualify as a dependent, parents may choose to use the Direct Parent Loans for Undergraduate Students to borrow up to the total cost of their child's education, minus any other aid the child may be eligible for. The loan is credit based, the interest rate varies annually and loan interest begins to accrue at the time of disbursement. Loan repayment typically begins 60 days after the loan has been fully disbursed.

RETURN TO TITLE IV POLICY

For each Title IV aid recipient who terminates/withdraws, the school must calculate the amount of Title IV assistance the student has earned which is determined on a pro-rata basis. The amount of aid that was disbursed or could have been disbursed for the payment period is multiplied by the percentage of scheduled clock hours up to the last date of attendance (date of withdrawal) divided by the clock hours in the payment period. Once the student has completed 60 percent of the payment period, the student has earned 100 percent of the assistance. If the amount earned is greater than the amount disbursed or could have been disbursed, the student may be eligible for a post-withdrawal disbursement. If a student is eligible for a post-withdraw disbursement, the school will confirm with the student or parent in the case of a PLUS loan, that they want a portion or all of the post-withdraw disbursement of the loan. If the amount earned is less than the amount disbursed or could have been disbursed, then the school and perhaps the student will be required to return Title IV funds back to the federal account(s). If the student is required to return loan funds (or the parent, in the case of a PLUS Loan), the student/parent must repay any unearned funds that the school did not return in accordance with the terms and conditions of the Master Promissory Note.

Federal Regulations require the return of Title IV funds in the following order: Unsubsidized loans, Subsidized loans, Plus loans, and Pell Grants. These returns will be made within thirty days from the date of determination. In the case of a leave of absence, the refund shall not exceed thirty days from the date of documented return. Under the Federal Regulations, once the Return of Title IV Funds policy has been applied, the school may then apply their Refund Policy and charge for unpaid portions of their schooling.

PROGRAM CANCELLATION POLICY

In the event Kaizen Beauty Academy cancels a program the students participating in such program will be given the option to transfer to another of the school programs. If the tuition fee for the program they transfer to is higher than the one that was cancelled, students will be responsible for paying the difference. If it is lower, the school will refund the difference.

If the student chooses not to enroll in another program, their tuition costs will be refunded in accordance with the "Cancellation and Refund Policy" and credit will be given for the hours and the services performed in the school, in case they want to transfer to another school. *Note: Kaizen Beauty Academy makes no guaranty that the credits will be accepted by another institution.* It is the responsibility of the student to arrange for the transfer of credits with the receiving school.

Students will learn that one of the most important aspects of proper sanitation is the cleanliness of all instruments and work areas. The habits the students form in this aspect will be very important, as they will affect the health and well being of the clients and themselves. The proper procedures to follow for the sanitation and cleanliness of the work environment are part of the chapter entitled “Bacteriology”, which is the science that deals with microorganisms.

HAIR SHAPING / CUTTING (CL01)

Hair design decisions are based on the consideration of the facial proportions, consultations with the client and the students’ understanding of style compositions. Hair styling design follows the same basic artistic concepts as any other form or art, only it’s applied to the hair. The three principal elements are form, texture and color. In creating and completing a design, none of these elements should be ignored.

SCALP TREATMENTS AND HAIR CARE RINSES (CL02)

The students will learn to define the theory of hair formation, growth, structure, parting and color. In addition, the students will learn the techniques of services such as washing, massages, hair care and evaluating common problems such as hair loss, dandruff etc. The students will be given the knowledge of the different products and manipulations. There are legal rules and regulations in place for the practice of cosmetology (code of ethics). Proper etiquette will ensure that your clients, coworkers and superiors will come to appreciate you and will treat you the same way. This way of conduct will take you very far and will help enormously in your success.

The students will receive a detailed description from their instructor of the functions and objectives of each instrument such as: razors, perm rods, setting rollers, scissors, thinning shears, electric clippers etc.

The students will learn to define the theory of hair formation, growth, structure, parting and color. In addition, the students will learn the techniques of services such as washing, massages, hair care and evaluating common problems such as hair loss, dandruff etc. The students will be given the knowledge of the different products and manipulations

SHAMPOOING AND RINSES (CL03)

The students will learn proper hair maintenance and the objective of the wash, the frequency, the products designed for each type of condition or alteration, the infectious diseases, manipulations, rules and regulations, water’s chemical composition, shampoos and the procedures to follow with different types of chemicals. This is a very satisfactory service for the client as long as it is done with professionalism.

HAIR STYLING (CL04)

As professionals, we will ensure that the students comprehend the individual needs of each client based on their age, personality and lifestyle and learn to use these aspects to work with the natural or artificial texture and the disposition of each client’s hair. A particular hairstyle for a certain individual may become their most descriptive characteristic, marking their personality and proclaiming their identity.

This chapter will cover three important parts of hair styling: the styling of wet hair, the styling of short hair and the styling of long hair. These techniques include symmetry and proportions, and the use of hand held hair dryers, brushes, curling irons, finger styling, rollers, braids, etc.

HAIR COLORING (CL05)

We will ensure that the students at the end of this chapter will be capable of defining color and its laws as well as identify the natural level, tones and intensity of the hair. Additional considerations will be given to texture, diameter and porosity of the hair due to the fact that these will influence greatly in the absorption of the color and the timing of the procedure.

The students will also be trained in the technique of coloring of the hair and the categories of different products. They will also become familiar with other techniques associated with hair coloring such as highlights, consultation with the client, promotions and sale of services, discoloration terminology and problem of discoloration of the hair and its solutions.
